Price adjustment Chicken & Beef – 1st of January 2022

Dear customer,

in the market environment for raw material procurement we have felt Significant price increases in the last weeks and months. In matter of the end products chicken & beef we can not longer compensates that increase.

We also have many by-products that we use in production need (packaging, cardboard boxes, plastic etc ...) as well as price increases in the double-digit range.

For those reasons we have to adjust the prices for Chicken & seasoned/unseasoned Beef from the -
1st of January 2022.

Our current market report for commodities and cost drivers, which gives you details on that subject as well as your new valid prices can be found in the appendix.

Best Regards,

i.V. / Fabian Vulic
