

**La Lorraine**  
**BAKERY GROUP**

Dear Client,

LaLorraine informs about a change in the price list of products from the offer. The increase in prices is dictated by significant changes in the costs of almost all resources necessary to perform production: labor costs, electricity, gas and water rates.

Another factor influencing the change in prices is the increase in the costs of raw materials and materials used in the baking industry. Our main raw materials: flour, oil, most grains and all packaging: cartons, foil and pallets are available at much higher and still growing prices.

This is a consequence of the unstable market situation, the imbalance between supply and demand, and unfavorable weather conditions.

Taking the above into account, and in order to provide you with products of the highest quality, we are forced to adjust our offer from 01/12/2021

Thank you for your understanding,  
LaLorraine Bakery Group
