

Seeing possibilities in potatoes

Product Range

Eesti turustaja kontaktid

Did you know?

Lamb Weston invented the Water Gun Knife in 1960. It's still the worldwide industry standard for cutting potatoes.

Seeing possibilities in potatoes with you!

Consumers are at the heart and start of everything we do!

By stepping into your shoes, and living and breathing your world, we can give our creative solutions to your needs, challenges and ambitions. We're a team. Here to discuss everything from menus and marketing to recipes and research, and of course, the all-important consumer. We share trends and insights to help you stay ahead of the curve.

Every tasty product we make is about meeting consumers' expectations. In a world where quality and taste are a given, we provide the innovation and inventiveness that takes great eating to the next level.

We're here for the restaurant operators, chefs and menu developers of the world. You want to serve great food, create memorable food experiences in line with the newest trends and consumer needs - that's where we come in!

Sharing and snacking

24/7 eating (grazing)

Reinvent traditions

Quality is everything

We put our passion and experience to work to deliver consistent quality, whatever the weather. We store our potatoes in our state-of-the-art storage rooms. This ensures potato quality all year round. We regularly test for quality, taking samples during the growing season all the way through to post-storage. Our innovative drip irrigation process ensures we use water in the most sustainable way. Our RAW specialists advise our growers on sustainable fertilization methods.

From field to fork – the journey of the potato

As populations grow, so does the demand for more potatoes. Better technology; tastier recipes; greener processes; game-changing ideas and more inventive thinking: that's where we come in!

Worldclass sustainable production

Making use of the best technology is all part of our global best practice and we use the latest technologies across every stage of our processes in a sustainable way. Only the best quality potatoes make the grade! By applying innovations that improve and speed up our processes, we are able to provide value to our customers! The result is consistent high quality day in day out.

Innovative logistic solutions

With creative logistic thinking we offer unique custom solutions that really benefit the customer in a sustainable way – everywhere and on time! By using more waterways and railways than roads, which is better for the environment, we save more than 4 million km a year. Our cold store warehouses are the first in the world to be fully automated and deliver more than 100 lorries of product every day.

Quality and Technical Sales support

Quality is everything. We demand the best from our ingredients, suppliers, factories, processes and ourselves. We check the quality of our output every single day. No compromises. We are proud that more than 99% of our products rate 'First Pass Quality'. At the Technical Sales department we understand what goes on in your kitchen. It is our mission to help you to get the maximum value out of our products and serve the best quality to your customers and make sure your customers will keep on returning to your restaurant.

Specialties

Chefs take pride in their signature dishes. So do we in our Specialties range. Products like CrissCuts®, Twisters® and Potato Dippers that we pioneered to offer you menu variation and differentiation.

New way of eating.

Sharing is a trend that's here to stay, and Potato Dippers are made for sharing. Ideal for mixing and matching with different dips and flavour combinations for a fun experience that will get people talking.

- Ideally shaped for dipping
- Super crunchy coating
- Fun, playful & exciting

Good to know

Available selection Potato Dippers

Potato Dippers LWS64

Menu inspiration

Seeing possibilities beyond sharing & dipping.

Greek salad style souvlaki

Fry the potatoes and cook the gyro meat and pittas. In a bowl, mix together cucumber, tomatoes, olives, onion, olive oil, lemon juice and salt and pepper. Spread over the pittas. Then add the gyro, potatoes and crumbled feta cheese. Season with oregano, thyme and dill. Sensational.

More menu suggestions on: www.potatodippers.com

Chipotle ranch dipping sauce

You'll need two cups of prepared ranch dressing, and a 1/4 cup of chipotle peppers in Adobo sauce. In a food processor fitted with a steel blade, process the chipotle peppers until smooth. Then combine with ranch dressing and serve chilled

Seeing possibilities in potatoes

Always imagining. Always believing there's a better way. Consumers are at the heart and start of everything we do together and we begin by looking inside our customers' business.

Lets hear it for the potato. It's the world's third most important crop and as populations grow, so does demand for more potatoes. Better technology. Tastier recipes. Greener processes. Game-changing ideas and more inventive thinking. That's where we come in!

As global industry leaders, it's our responsibility to always be two steps ahead. Always challenge the status quo. Forever ask 'What if?' And never, ever settle.

We believe our inventiveness will help change the world.

Tasty new products. Groundbreaking technology. Sustainable daily practices. We apply our inventive thinking to everything we do. Ever since we started, as a family business back in 1950, we've always put customer value first. Now a world leader, we bring you world-class frozen potato products and services designed to make your job more convenient, productive and profitable. Here are some more facts and figures that describe what we do...

> 1200 employees in EMEA > 7400 employees worldwide

12 million portions sold daily in EMEA.
50 million daily portions sold worldwide.

23% market share worldwide (1 out of 4 fries is a Lamb Weston fry)

> 5 factories in Europe> 19 factories worldwide
